Education

Chittagong University of Engineering & Technology (CUET) 2020 – July 2025
B.Sc. in Computer Science and Engineering CGPA: 3.35/4.00

Bakalia Govt. College, Chittagong 2017 – 2019
Higher Secondary Certificate – Science GPA: 5.00/5.00

Technical Skills

- **Languages:** C#, C, C++, JavaScript, Python
- **Frameworks & Web:** ASP.NET Core , MVC, Web API, Angular, Entity Framework Core, Bootstrap, AJAX
- **Databases & Architecture:** MSSQL, MongoDB, N-Tier Architecture, Repository-Service Pattern, SOLID Principles
- **AI & Automation:** LLM Integration, OpenAI API, Claude API, Meta Graph API, 360dialog WhatsApp Business API, n8n Workflow Automation, AI Agent Development
- **DevOps & Tools:** Git, CI/CD, GitHub, GitLab, Docker, IIS Deployment, PLC Communication, IoT Integration
- **Core CS:** Data Structures & Algorithms, REST API Design, Software Architecture, SDLC, Agile/Scrum

Experience

•PRAN-RFL Group Nov 2025 – Present
Junior – ASP.NET Developer Dhaka, Bangladesh

- Developed and maintained ASP.NET-based modules and backend services using C#, SQL Server, and AJAX for existing factory automation systems, enabling real-time industrial machine monitoring and work-in-progress (WIP) tracking through PLC communication and IP-based IoT data integration across manufacturing facilities in Bangladesh.
- Designed, developed, and deployed a production-grade WhatsApp AI Agent using ASP.NET Core, SQL Server, and IIS for PRAN-RFL operations in Saudi Arabia, the UAE, and Malaysia, integrating eCommerce and CRM APIs with the 360dialog WhatsApp Business API to automate product browsing and order placement through LLM-powered conversations.

•Ultimate IT Solution BD Dec 2024 – Jan 2025
Industrial Attachment Chittagong, Bangladesh

- Built an AI-powered web suite on ASP.NET MVC integrating Text-to-Image (Hugging Face), Text-to-Voice synthesis, AI Canvas, and a context-aware multi-turn Chatbot via OpenAI API

Projects

•Employee Management System – Frontend

- Responsive Angular dashboard with JWT authentication, role-based access control, and REST API integration

•Employee Management System – Backend

- Scalable ASP.NET Core Web API using N-Tier architecture, Repository-Service pattern, Entity Framework Core, and SQL Server

•WhatsApp Chatbot Backend – Enterprise Complaint

- Production-grade ASP.NET Core 8 backend with SQL Server — real-time complaint submission, HRIS staff verification, acheived 80ms webhook response; deployed on IIS with 360dialog Business API serving enterprise users at PRAN-RFL Group

•CUET Book Sharing Platform – MERN Stack

- Full-stack MERN platform for campus-wide book sharing; deployed live at book-sharing-4vmi.vercel.app with TailwindCSS responsive UI

Certificates

Coursera – Machine Learning Specialization:

• Supervised Learning: Regression and Classification • Unsupervised Learning: Recommenders & Reinforcement Learning
• Advanced Machine Learning Algorithms
